COUNTRY OF ORIGIN:

Made in New Zealand

BULK DENSITY:

Nominally: loose 1.10g/ml, compacted 1.37g/ml

GRADE DESCRIPTION:

Crushed, fine, dry, screened salt. Rewashed, kiln dried and screened to capture extra fines. Solar salt is a natural mineral which is harvested from fresh seawater. Small traces of extraneous matter (as measured by "water insoluble matter") remain in the salt after refining.

Quantities of extraneous matter do vary from time to time. Physical separation techniques used by Dominion Salt are typical of those used in Solar Salt refineries around the world and are designed to minimise the level of extraneous matter. Where the salt is used to make brines, it may be necessary to filter the brine. Where extraneous matter is unacceptable the recommended aesthetically cleaner alternative salt is recrystallized Pacific® PDV (Pure Dried Vacuum) Standard Grade Salt. GP Fine salt is NOT a certified Food Grade Salt.

COMPLIANCE:

- » National Programme 3
- » NOT a genetically modified food as defined under 1.5.2 of the ANZ Food Standards Code
- » Free from known Allergens
- » Kosher Certified
- » Dominion Salt is ISO 9001, FSSC 22000 certified
