FEEDING RECOMMENDATION:

Sheep: 1 block per 50.
Cattle: 1 block per 10.

Maitech comparative studies on the erosion rate between Summit® Rock Blocks and Imported Rock Salt

Summary:

Summit® Rock Blocks showed a markedly slower rate of erosion over the two trial periods.

Summit® Rock Blocks lasted 3.8 times longer and required 2 times the amount of rainfall than the Imported rock salt before 50% of the salt was lost to erosion.
